Survey Design

- SurveyUSA fielded responses from Thursday, November 6 through Thursday, November 13
- four contact methods:
 - MMS (65% of responses)
 - phone – recorded voice (15%)
 - phone – live operator (9%)
 - web panel (12%)
- roughly 15 questions per respondent
- 3-5 minutes to complete

Sample Weighting

- 584 people completed the survey
- Results are weighted to match the demographic makeup of Arlington's 2025 electorate.

Sample Weighting by Age

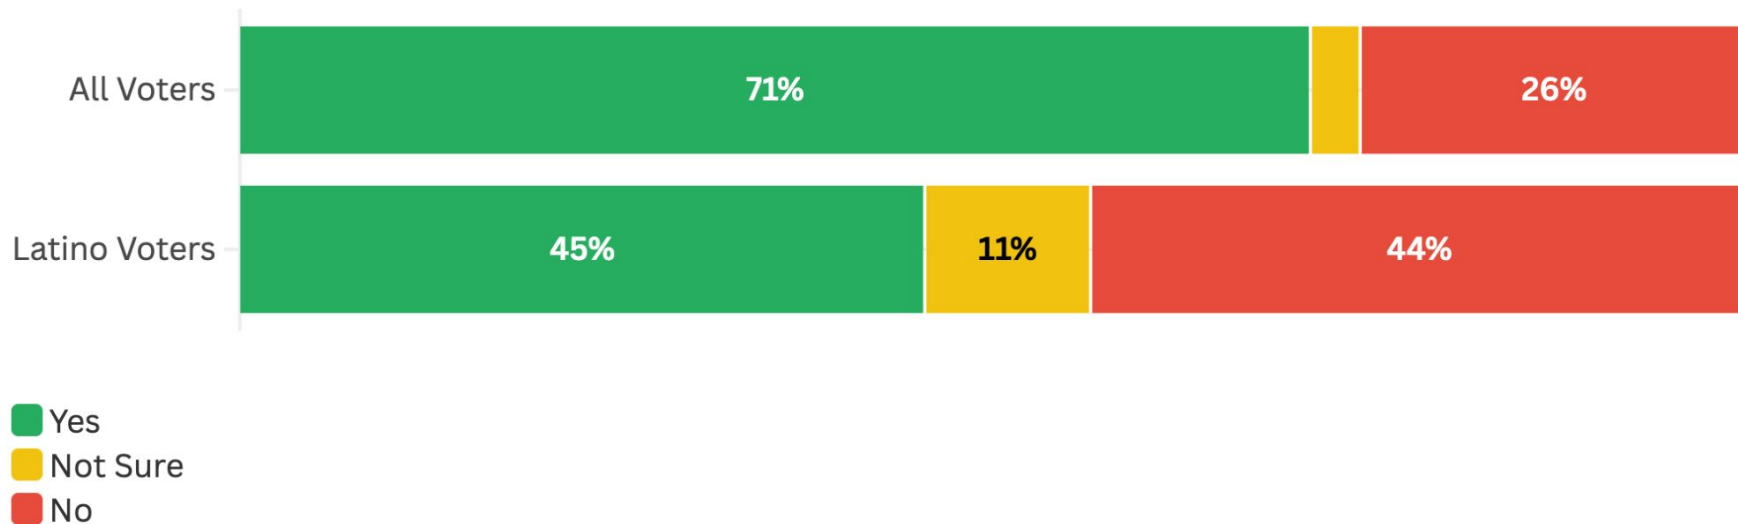

Note: The unweighted sample is 584 respondents surveyed from November 6-13, 2025. The weighted sample is weighted to match the age, race, and gender distribution of the Arlington electorate using data from the US Census and CNN's 2025 statewide post-election poll.

Survey Content

Questions focused on four dimensions of the voting experience:

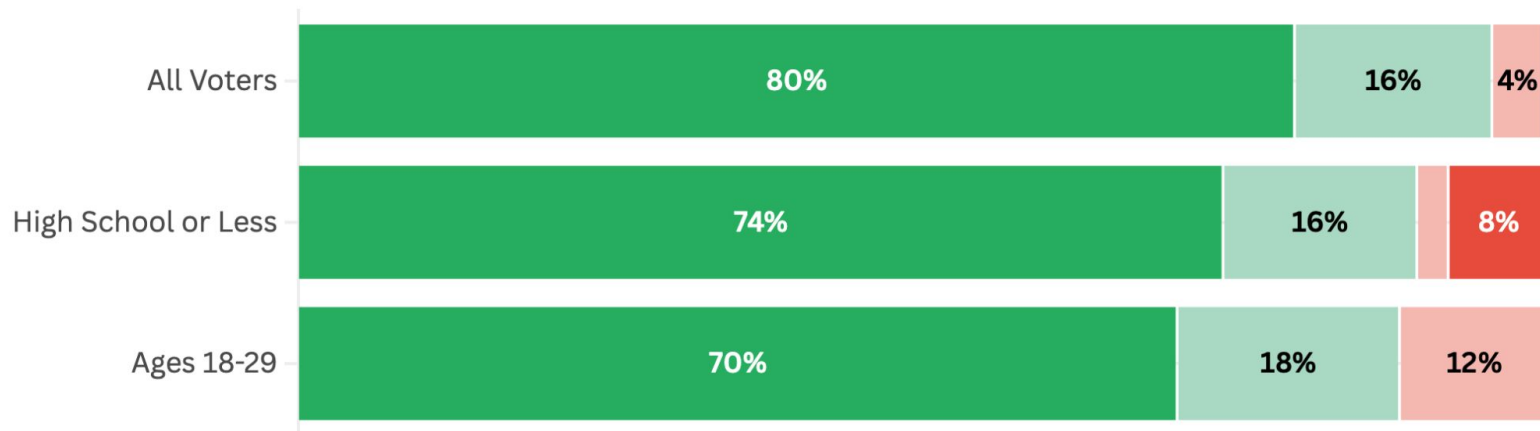

1. Did voters **anticipate** using RCV in this election?
2. Were voters comfortable **marking** their ballots?
3. Did voters understand the ballot **counting** process?
4. Do voters **support** using RCV in future general elections for Arlington County Board?

Did You Know You Would Be Asked to Rank the Candidates Before You Received Your Ballot?

Note: The All Voter sample is 584 respondents weighted to match the age, race, and gender distribution of the Arlington electorate. The Latino Voter sample includes 37 respondents.

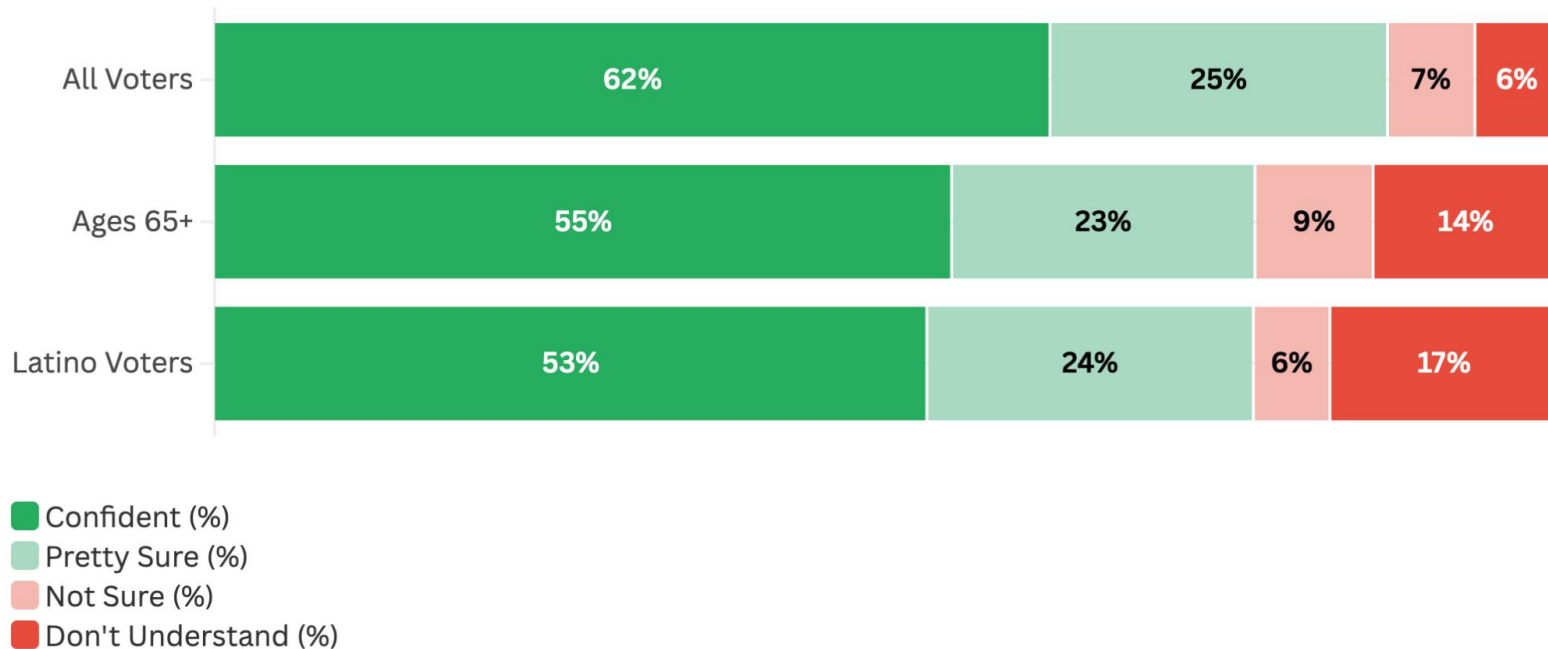

How Confident Did You Feel Marking Your Ballot?

- Very Confident (%)
