History & Culture

Explore the links below to learn about the many chapters of history on this island from ancient history up to becoming a memorial to Theodore Roosevelt in the 1930s.

This island was assigned a variety of names starting with John Smith's exploration of the area on his voyage up the Potomac River. All were Anglicized hybrids of the name of the local Algonquian-speaking Native American Indian group who were using the island. Known variously as Nacotchtank, Anacostan, Nacostine, Anacostine, Anaquash-tank, Nacotchtant, or Nachatanke, their Anglicized names seem to be derived from the Indian word "anaquashatanik", meaning "a town of traders". Later, the name Analostan became commonplace.
