

THE GAZETTE.

MONDAY EVENING, JULY 19, 1892.

LOCAL INTELLIGENCE.

WEATHER PROBABILITIES.—For this section fair weather, variable winds, shifting to southerly, warmer in southern Virginia.

PERSONALS.—Among the persons from the White Sulphur in one of the Washington Sunday papers were the following: "Two of the most distinguished looking men here are Col. Arthur Herbert and Capt. Herbert Bryant, of Alexandria. Col. Herbert is accompanied by Mrs. Herbert, Miss Florence, and his little daughter Nora. Miss Marian is in Scotland with Miss Edie Burritt and their chaperone, Miss Randolph. Mrs. P. Myers and her sturdy little son, from Falls Church, are here, and Miss Maggie and Miss Annie Dean, of Alexandria, have just arrived."

Mr. Cliff H. Price left this evening for St. Louis, where he has accepted a position with a wholesale lumber company.

Messrs. Charles Forsythe and Frank Wallace, of Leesburg, were in the city to-day.

Miss Katharine Spear, of Baltimore, is visiting Mrs. J. Sidney Douglas, on Cameron street.

Joshua H. Brown and Lizzie Brooks were captured in a small sailboat at Collingswood Beach yesterday. A steam launch passing picked them up.

Mrs. John T. Cox and children have gone to Spring Grove, Caroline county, to spend the summer with Mrs. C.'s mother and relatives.

Capt. Herbert Bryant has returned from the White Sulphur Springs.

Mr. Frank Richardson, of Boston, is visiting Mr. John Donnelly on Prince street.

Mr. Thomas M. Thornton, the member of the democratic committee from Illinois to notify Mr. Cleveland and Mr. Stevenson of their nomination as President and Vice President respectively, was in the city yesterday on a short visit to friends. Mr. Thornton is a son of the late Gen. W. F. Thornton, formerly of this city.

Miss Mary Pym, aged about 75 years, residing with her nephew, Mr. C. Cummings, at 415 Queen street, met with a painful accident this morning by falling down a flight of steps. She was severely bruised and it is feared seriously injured one of her hips, though no bones were broken.

Judge Norton and his sister, Miss Nannie, have gone to Fauquier.

Mrs. Bedford Brown and Mrs. Frank Lambert have returned from Cape May.

Misses Jennie and Lucy Minigero have returned from King George county.

A PLEASANT SUNDAY.—The cool wave which struck this section Friday night continued its benign influence yesterday, imparting an October temperature, which was duly appreciated by both man and beast who had borne the depressing effects of the torrid wave of last week. Flies were in some measure chilled into inactivity, and the tantalizing horse-hair notes of the mosquito, with his saw and syphon, were few and far between. It was a gala day for moving about, and the night which followed was fraught with conditions that rendered it easy to fall into the arms of Morpheus and steep one's brains into forgetfulness of the discomforts incident to the previous sultriness. All day long and far into the night the moving panorama of excursion steamers, decked with bunting and from whose decks hands discoursed entrancing music, rendered the river an interesting spectacle upon which to gaze, while the crowds of both sexes which crowded in the southern section and on Jones's Point as the shadows began to lengthen imparted a picnic appearance to that part of the city. Church-goers were about as numerous as usual, and the number of strangers in town larger than on any previous Sunday for some time.

ALEXANDRIANS DON'T SMELL.—The following communication dated Alexandria and signed "C" appeared in the Washington Star on Saturday: "Alexandrians are astonished that the district authorities, that possess power, disinfectants and a police boat, allow the river approach to the city to be blockaded by stench. Every steamer or sailing vessel going into or coming out of the harbors of Washington or Georgetown has to run this blockade, whose sickening odors is the bane of river excursions and the forerunner of cholera. The fetid breeze which blows off the shore from what is ironically 'Colonial Beach,' half way between this city and Washington, has driven from the steamers the multitudes of Washington babies and nurses that in other days got a chance at fresh air on the river. Now a breath of the cancerous atmosphere vomits the sick babes. The Alexandrians that travel on the boats are not concerned about the stench. They do not smell it. The board of health here furnishes each of them at the wharf with two nose plugs, and the only way they know of the stench is by the fluttering of white handkerchiefs which the Washingtonians hold to their noses, like flags of truce, when passing the stench blockade."

POLICE REPORT.—Last night was clear and cool with neither prisoners nor lodgers at the station house.

The following cases were disposed of at the Mayor's office to-day:

N. Murphy, a tramp, for carrying a concealed razor, and Henry Pearson and C. O. Jamieson, tramps, for begging in the streets, were ordered to leave the city.

Benjamin Lewis, colored, assault on his wife, \$2.50 and in default of payment, was sent to jail.

Mary Boyd, colored, selling liquor on Sunday, case continued.

A white man for permitting a vicious cow to go at large, was required to pay costs and was instructed to keep his cow and horses on his own premises and remove a hog without the city limits.

Maud Peterson and Hattie Toliver, colored, fighting, \$1.50 each.

THE AURORA BOREALIS.—There was a brilliant display of "Northern Light," or as they are less familiarly known, the aurora borealis, in the northern sky on Saturday night at 10:50, which was plainly discernible till after 11 o'clock. The phenomena made its appearance in the form of electric flashes, widely spread out, and radiating upwards. These grew gradually brighter after the lights first were discovered. Long tails, like those seen suspended from comets, shot out from several points over the blue sky, and then the lights were changed to a dull red, after which they disappeared. The sight was remarkably beautiful, and attracted general attention.

STEAMER ASHORE.—The steamer Lady of the Lake, of the People's Washington and Norfolk line, left here about 6 o'clock on Saturday evening and about 11 o'clock ran aground at Lower Cedar Point. She had on board some 250 passengers. The steamer floated at high tide yesterday morning, after an unsuccessful effort had been made by the steamer Arrowsmith to pull her off, and proceeded to Norfolk, where she arrived last night. The steamer sustained no damage by her grounding. The steamer Wakefield yesterday took on board some of the passengers of the stranded steamer and brought them to Washington. The Lady passed up the river between 12 and 1 o'clock to-day.

GORED BY A HEIFER.—Mrs. Isaac Hall was knocked down and gored by a refractory heifer, belonging to Mr. Wm. Sisson, yesterday morning in the southern section of the city. This morning the owner of the animal was arrested, and after being made to pay the costs of the warrant was ordered to keep the heifer out of the streets in future. The defendant didn't seem satisfied with the judgment of the police court, remarking as he left the hall of justice that other people in his neighborhood allowed their horses to run through the streets without let or hindrance.

A RAZOR IN HIS CRAVAT.—Mr. Murphy, a one-armed itinerant, one of a gang of four who were begging on the streets Saturday night, was arrested as a suspicious character. On his way to the station house in charge of Lieutenant Smith it was noticed that he put his hand to his collar several times, and upon arriving at the lockup he was searched, when it was found that he had a razor secreted in his cravat. This morning he was ordered to shake the dust of the city from his feet in instant, which he did.

WORK BEGINS.—The work of grading the line of the electric railway from this city to Mt. Vernon was commenced to-day by the contractors, Messrs. Woodbridge & Turner, of New York. A large force of men was put to work on both sides of Hunting Creek and the grading will be pushed to an early completion under the supervision of Mr. Jos. Breen. To-day the engineers gave the contractors the lines for constructing the road on south Fairfax street. The contractors have opened their office at the shipyard at the foot of Union street.

ANNIVERSARY.—Grim death has decimated the ranks of the old 17th Virginia Infantry very largely, but there are still survivors and participants who, with the annual recurrence of the date of July 18th, remember the thrilling scenes of the charge made after crossing Blackburn Ford 30 years ago, and the hand to hand encounter with their opponents. It is undoubtedly true that the first life taken during the strife by a bayonet was during this charge (that of a Union soldier).

FREIGHTS by the steamers plying between this city and Norfolk are unusually heavy and Saturday's steamer took on board seventy-five barrels of whisky from the Cameron distillery, some two hundred bags of ground plaster and a large quantity of miscellaneous freight. Yesterday's steamer from Norfolk unloaded here, in addition to a large general freight, some 300 empty beer barrels, for the Porter Brewery, evidencing the prosperous trade of that Alexandria manufactory.

TRANSFER OF TROOPS.—The Norfolk steamers have been busy during the past week in transferring troops between Washington and Fortress Monroe. The Third Artillery, numbering 250 men, heretofore stationed at the Washington Arsenal, has been transferred to Fortress Monroe for field practice, and the First Artillery, which has been under practice at the fortress, numbering 300 men, has been sent to the Washington Arsenal.

THE PRICES OF COAL.—The Philadelphia and Reading railroad having advanced its freight rates, has caused the prices of coal to advance also, and the dealers in this city have agreed upon the following prices:

Delivered in chute wagon: Furnace, \$5.65; egg, \$5.65; stove, \$5.90; nut, \$5.65.

Delivered in dump cart: Furnace, \$5.50; egg, \$5.50; stove, \$5.75; nut, \$5.50.

DEATH OF AN EX-CONFEDERATE.—Mr. John Wright, better known as John Waters, a riverman, died at Providence Hospital, Washington, on Saturday. The deceased was for a time a member of company E, 17th Virginia infantry, but before the close of the war was transferred to the Confederate navy. He married a daughter of the late Captain Eli Pettit.

HARBOR IMPROVEMENTS.—The harbor improvement report of Major Davis, engineer, has been forwarded to General Casey, in charge of the harbor improvement. Major Davis refers in his report to the work at Mt. Vernon and in Occoquan creek. At the latter place it is estimated \$35,000 will be required to complete the dredging. For completing improvements of Aquia creek \$30,000 is estimated and for Nomini creek \$30,000. No further work is needed at Mt. Vernon, the channel being sufficient. During the year \$25,000 passengers were landed at Mt. Vernon.

LOCAL BREVITIES.

The fire plugs were all opened on Saturday night and the water mains flushed.

The Potomac Shoe Factory resumed operations to-day after a three weeks' shut down.

A large number of bicyclists who are attending a convention in Washington, came here yesterday sight-seeing. A number of them visited Christ Church.

At present there are but 11 prisoners confined in the city jail—7 city (5 of whom are subject to the chain gang) 2 county, 1 United States and 1 insane prisoner.

Mr. W. H. Tayloe has been appointed district passenger agent of the Richmond and Danville Company with headquarters at Atlanta, Ga., vice Mr. A. S. Thwaites, transferred.

The commissioners of the sinking fund have rented the first fish bench west of the south gate in the market to Mr. J. T. Cook, sr., from this date to February 28th next, for \$40.50, the highest bid.

The Fire Warden has ordered about half a dozen fire plugs to be placed in the southwestern section of the city, in which section the Alexandria Water Company is extending its mains.

Judge Chichester, of the County Court, has appointed Mr. W. N. Febray County Supervisor of Washington district to fill the vacancy caused by the death of Walter G. Wilson, colored, deceased.

The Young Men's Sodality Lyceum excursion for next Thursday promises to be largely attended, and all that now remains is for the weather to be favorable to make it the largest excursion the Lyceum has yet undertaken.

The steward of the schooner Mabel Hooper, which arrived here yesterday morning from Penobscot with ice, brought over a dozen large fish, which he caught on the Delaware coast with a line and which he called "albicore." The fish weighed from 40 to 60 pounds each and are said to be very fine.

Beattie & Corbett, real estate agents, have sold for Henry Johnson, a 63-acre tract of land known as the Mount Polk farm, in Fairfax county, to Mrs. Louisa DeLaven, of this city, for \$22,000.

The Corcoran gallery in Washington has been closed and will not reopen until the 14th of September.

MONETARY AND COMMERCIAL.

NEW YORK, July 18.—The opening of the new week at the Stock Exchange this morning showed no change in the character of dealings, though a firm temper prevailed. At 11 o'clock the market was dull and stagnant at insignificant changes from opening prices.

BALTIMORE, July 18.—Virginia consols 38 bid; do 10-40s 39½ bid; do 3s 73¼ 75½ bid.

The markets opened this morning fairly active and firm. We note a very good demand for freshly ground old Wheat Flour with lighter stocks in first hands than is usual at this season. Some half new and old, but no entirely new has yet been offered. Wheat is stronger; sales 75 to 80, latter for prime milling free of garlic, 73 to 76 for common to good, 65 to 73 for badly damaged to fair. Corn is scarce at 63 to 65. Rye 65 to 75. Oats 38 to 41. Eggs are dull at 14 to 15. Butter 15 to 18. Potatoes and other produce are without change. Chickens 15 to 17. Veal Calves 4 51. Milled, Hay and Straw are dull.

BALTIMORE, July 18.—Flour dull. Wheat firmer; No. 2 red spot and July 82a53; Aug 82a52; Sept 83a54; Oct 84a54; No. 3 red spot and July 82a53; Aug 82a52; Sept 83a54; Oct 84a54; No. 4 red spot and July 82a53; Aug 82a52; Sept 83a54; Oct 84a54;
