

New Member Takes Seat Tomorrow

Appointment of A. E. Frisbie To County Board Protested

Alfred E. Frisbie, who was appointed to the unexpired term of County Board Member Leo Lloyd, who died November 3, was sworn in Tuesday and will attend his first Board session tomorrow. The 36-year-old Washington stock broker has been a resident of Arlington since June, 1938, and his home is at 636 South 25th Street.

He is a member of the Arlington Democratic Executive Committee, a member of the Jefferson Civic League, which endorsed his appointment, a member of Fort Scott Post, American Legion, and secretary of the Keystone Class of the Mount Vernon Baptist Church. Mr. Frisbie served in the Army Ground Forces in the Pacific during World War II. He is the father of two children.

The Arlington Better Government League, at its November meeting, protested Mr. Frisbie's appointment by Circuit Court Judge Walter T. McCarthy. The League's statement declared appointment of "a member of the Democratic Executive Committee who handed out literature at the polls for the Greater Arlington Association in the supposedly non-partisan election for County Board and School Board members, is another example of the exercise of the vast political and non-judicial powers of our Circuit Judge with apparent disregard of the electorate."

"The Better Government League believes that the people's choice was T. Oscar Smith, the candidate who received the third highest number of votes among nine candidates in the recent election to fill two seats on the Board, and that logically he should have been named."

Daniel A. Dugan, a board member, said, "The mere fact that a judge of the Circuit Court is allowed to choose representatives of the people, representatives who should be selected by the people, is a mockery of democracy in the State of Virginia."

"I recommended appointment of T. Oscar Smith to the vacancy on the Arlington County Board, because he finished third in the general election. However, this seat should have been filled by a run-off election with all defeated candidates on the ballot."

Reed K. Pond was elected president of the Parkway Citizens' Association at its November meeting. Arthur B. Fridinger is vice president; Willard Scott, treasurer; Mrs. L. Petrucci, corresponding secretary; and Mrs. George Crowther, recording secretary.

Police Chief Warns of Added Care Needed for Winter Driving

"Cars Skid, Two Killed, Three Hurt."

"These are the headlines we don't like to read in our newspapers," Chief of Police H. L. Woodyard warned yesterday, "but unless we take precautions now against the added hazards of winter driving, there'll be headlines like this during the coming months."

Chief Woodyard added that "just as sure as snowfalls and Christmas are coming, there will be drivers who fail to compensate for the hazards caused by snow, ice and reduced visibility."

"Even as anti-skid chains are needed at times to counteract snow and ice," he declared, "windshield defrosters and wipers are as necessary as good lights. Such equipment, during bad weather, is just as vital as any functional part of a car or truck. Drivers who neglect these safety aids cause increased accidents and traffic tieups. If

unprepared, they should not drive until conditions clear."

The police chief's warning is based on his own experiences as a public safety official and a new research report by the National Safety Council's Committee on Winter driving hazards. The report showed about 65 per cent of Winter accidents occur on snow and ice, and recommended use of tire chains on rear wheels of all vehicles whenever weather and road conditions warrant them. The other major cause of the increase in accident death rates in snowbelt States during Winter is reduced visibility, the report verified.

"Above all," Chief Woodyard said, "we need the full cooperation of all drivers on realistic Winter driving practices if we expect to prevent more injuries and deaths. This means adjusting speed to conditions, using proper equipment, and generally being extra careful out of respect for added hazards of Winter."

Speaker Expounds 'Free Way Of Life'

True Facts Held Proof of American Business System

The annual Memorial Mass and Communion Breakfast of the Edward Douglas White Council, Knights of Columbus, last Sunday was highlighted by an address on "Our American Heritage" by John A. Reilly, president of the Second National Bank of Washington.

Mr. Reilly stressed the value of the capitalistic system in the development of the United States, and of the opponents of the capitalistic system he said: "... they distort the facts and fire the imagination against private business. We must dig out the true facts—put out the fire—and get the masses, who have been so cruelly misled, to know and understand the true significance of our American economy."

In challenging any other system to produce such a splendid result as had been attained in the United States, Mr. Reilly said, "We, one of the youngest of all nations, have the undisputed claim to the highest standard of living in the world. Why?"

"This standard of living we owe to our national capacity to produce goods and services in large volume and at low cost."

"The free way of life is a rugged, painful business at times, but it has paid the biggest dividends on earth and it has been worth every weary mile of it."

George J. Kramer, Sr., past State deputy of Virginia, acted as toastmaster and introduced the guests and the Rev. Vincent Campi, chaplain, who congratulated those present on the grand turnout.

Also present were James Flanagan, chairman of the Public Utilities Commission of the District of Columbia, Charles P. Maloney, past president of the Catholic Alumni Association and Past Grand Knights Joseph Petit, Basil Moise, Louis Metzger, A. Kirchner, Hugh McGrath and Thomas Miller.

The Mass was celebrated at St. Charles Church by Father Campi and breakfast was served by the St. Charles' Women's Club in the St. Charles School.
