REMARKS.—The market for flour has sustained no material change in the higher grades since our last weekly report, but may be quoted weak for some low grades of Extra, sales of which brands have been made at a decline of 12c on our quotations. We repeat our quotations: Super 8 75c; Extra 10 50c; Family 11 50c; Choice 12 50c. The wheat market closes without change in prices; offerings during the week have been light, with an active demand, particularly for prime and choice samples; sales to-day at 20c for fair, and 22c for strictly prime, with offerings of 24c bushels—Corn is declining; offerings of 85 bushels white and 45 of mixed, with sales of the latter at 82c. Oats are firm; offerings of 100 bushels, with sales at 62c. Plaster is arriving freely. Bacon is unchanged. Butter has declined 3/4c during the week, and the market may be quoted dull. Eggs are scarce and wanted. Salt is in fair demand, with full supply. Potatoes and Onions are dull.

ALEXANDRIA CATTLE MARKET, May 24.—Black cattle.—The offerings this week amounted to 20 head. Among the number was one car load of superior Illinois Cattle, the principal part of which was taken by the butchers here at 10m 75 to 8c gross. The other stock, principally Cows and rough Cattle, brought from 4 to 6c. The remainder of the week were driven to the District market. Cows and Calves in abundant supply at from 20 to 30c per head. Sheep and Lambs.—The offerings amounted to 800 head. Sheep sold at from 4 to 7c gross, and Lambs at from 3 to 5c per head. The market is over-supplied, and prices are declining. Hogs.—Are coming in quite freely, and sell at from 6 to 8c per cwt.

BALTIMORE CATTLE MARKET, May 23, 1872. Prices to-day for Beef Cattle ranged as follows: Best Beef at 7 25c; 2nd quality at 6 75c; good fair quality at 5 00c; 3rd quality at 4 50c; inferior and lowest grades of Cattle 0 00c; 4th quality at 4 00c; 5th quality at 3 50c; 6th quality at 3 00c; 7th quality at 2 50c; 8th quality at 2 00c; 9th quality at 1 50c; 10th quality at 1 00c; 11th quality at 0 50c; 12th quality at 0 00c. Total receipts for the week 1187 head, against 926 head last week. Total sales for the week 978 head, against 825 last week, and 806 head same time last year.

Sheep and Lambs.—The market this week has been somewhat overstocked with Sheep, and prices in consequence have declined. Some drovers, not satisfied with the figures, have reshipped their stock to Philadelphia and New York, about 1000 head having gone on to meet the risk of the market. There is no change in the close from the previous prevailing dullness, but prices show an inclination to yet lower figures. We quote common to good at 4 1/2c, and good to extra at 5 1/2c per lb gross. Lambs dull; we quote at 2 50 to 3 50 per head, as to size and quality.

Hogs.—The average weights of the Hogs are medium, just suited to the needs of the season, which measurably accounts for the free demand for good corn-fed Hogs; stillers are in rather light supply, and slow of sale. We quote corn-fed Hogs at 6 50c, a d still-fed at 5 50c per 100 pounds net.

GEORGETOWN CATTLE MARKET, May 23.—There were 225 Beef Cattle, 1800 Sheep and Lambs and 50 Cows and Calves at 25 Cattle offered for sale to-day. 25 Cows and Calves, 4 Cows and Calves left over unsold. Beef Cattle sold at from 4 to 7c; Cows and Springers at from 20 to 30c; Sheep at from 24 to 7c, and Lambs at from 2 50 to 3 50 per head. Beef Cattle rather inactive; Sheep and Lambs dull; Cows and Springers very dull.

NIGHT REPORT.—Night clear and cool.—Many persons were on the streets, some under the influence of liquor, but there were no disturbances. One prisoner was at the station house.

FAST AROUND.—The steam tug Atlantic, which left here on Wednesday to the relief of the schooner A. J. Bentley, ashore at Ragged Point, returned yesterday having been unsuccessful in getting her off. The tug worked at her from eleven o'clock Wednesday night until two o'clock Thursday morning, but as she was so far out of the water as to be almost on dry land, was unable to move her. Her captain has sent to Norfolk for the assistance of Captain Baker's wreckers.

INFORMATION WANTED.—Aunonda, an idiotic colored woman, of middle age, strayed from her home on the 20th of December last and was seen on the same day going through Accotink. Any information of her, sent to her Father, Daniel Carroll, living on a part of the Mount Vernon estate—directed to Accotink Postoffice, will be gladly received. She may be identified by having double little toes on one foot. We are requesting to ask the Leesburg and Fredericksburg papers to notice this.

MASONIC FAIR.—A large attendance was present at the Masonic festival, at Sarepta Hall, last night, and all seemed to enjoy themselves. A large delegation of the Masons of Washington will be present, to-night, when the Musical Association will again produce some of their choicest pieces.

ATTEMPT TO ROB A TICKET OFFICE.—An unsuccessful attempt was made last night to break into the ticket office at the O. A. & M. R. R. depot. TELEGRAPH NEWS.

[SPECIAL DISPATCHES TO THE GAZETTE.]

FROM WASHINGTON.

WASHINGTON, May 24, 1872.
CONGRESS.
The Senate considered at length, to-day, the Conference report upon the disagreeing votes of the two houses on the Postal Appropriation bill.
The House of Representatives was engaged in the consideration of private bills until two o'clock.

O. A. & M. R. R. CO.
Mr. Starckweather, from the Committee on the District of Columbia, at 2:30 o'clock reported favorably on the bill for the O. A. & M. R. R. Co. to convey passengers and freight within the District of Columbia.

Mr. Garfield opposed the bill on the ground that the outlet of the tunnel was too near the Capitol.
Several amendments were offered so as to have the track laid three or four squares from the Capitol.
The ayes and nays being demanded upon the amendment to change the line where it emerges from the tunnel to Second or Third street, it was adopted by a vote of 114 to 61, and the bill was then passed.

Workmen's Convention.

NEW YORK, May 24.—The National Workmen's Convention to nominate a President and Vice President of the United States met yesterday in accordance with a call of the Workmen's Central Union of the State of New York. The convention was called to order at 2:20 o'clock by Col. Hedmond, of New Jersey who was elected temporary chairman. The usual committees were appointed. The call of the roll showed delegates from thirty States to the number of over two hundred. A permanent organization was effected by the election of Col. Gibbons, of New York, as chairman. Col. Gibbons in taking the chair, eulogized Grant's recent action in regard to the eight hour law, reviewed his policy and said he was the only man who could be trusted by the working classes.

A series of resolutions were reported embodying the following principles:
The redemption of the National debt, unconditional settlement of the Alabama claims, enforcement of the eight hour law, low rate of interest on common national law, encouragement of ship building, giving United States mails exclusively to American built ships and sympathy with nations struggling under oppression.

F. M. McGee, of New York, recommended President Grant for renomination.

The Missouri delegation recommended Horace Greeley. On taking the ballot Grant received 204 votes and Greeley 5 votes. The nomination of Grant was then made unanimously.

Senator Henry Wilson was then nominated for Vice President by the following ballot: Wilson, 106; E. D. Morgan, 25; Colfax, 24. Grant and Wilson were then notified by telegram of their nomination.

A committee was appointed to prepare an address to the workmen of the United States. A motion was adopted to hold a ratification meeting at Cooper Institute. The evening session was occupied in discussing questions relative to the strike.

The Disaster to the Baltimore.

LONDON, May 24.—It has been ascertained that the vessel which was in collision with the steamship Baltimore, off Hastings, night before last, was the Spanish Screw steamship Lorenzo Semprun. She received no injuries. The baggage of the passengers of the Baltimore and her cargo in the after compartments will be saved, but the forward compartments are filled with water. When the crew of the Baltimore attempted to lower her boats, just after the collision, the gearing used for that purpose would not work and it was impossible to float them. The passengers were seized with consternation, but their fears of a watery grave were soon allayed by the promptness with which the coast guard of Hastings came to their assistance. The Baltimore will probably be a total wreck.

Fire and Fatal Accident.

ITHACA, N. Y., May 24.—About 3 o'clock this morning, buildings belonging to W. G. Johnson, on Fall Creek, were fired by an incendiary. One of the steamers of this city was stationed on the high bridge over Fall Creek. When the fire was nearly out the bridge, without any warning by cracking, fell, carrying with it the engine and people who had congregated there to the number of about two hundred. The bridge was twenty feet above the water, and the whole of it went down together. Fifteen persons were seriously injured, including some of the students of Cornell University; some so badly that they are not expected to recover. Surgical aid was quickly obtained, and the wounded were borne to their homes on couches and beds.

Foreign News.

PARIS, May 24.—The specie in the Bank of France has increased 3,600,000 francs during the past week.

LONDON, May 24.—The interest in the action of the United States Senate upon the proposed additional article to the Treaty of Washington is undiminished. The leading editorial article, of all the morning journals to-day are devoted to the subject and joy is expressed over the probability that the proposition submitted by Earl Granville will be favorably received.

A dispatch from Government workmen which was sent from the admiralty office to the relief of the steamship Baltimore has arrived there. They are in hopes of saving the vessel.

Virginia Election.

NORFOLK, VA., May 24.—In yesterday's municipal election the Conservatives elected all their ticket except the councilmen in the fourth ward. John Ludlow the Conservative candidate for Mayor was elected by about forty majority over Robert Gwin, Republican.
In Portsmouth the entire Conservative ticket, headed by A. S. Watts for Mayor, was elected. Watts' majority over Thomas, the present republican Mayor, is about three hundred.

Treachery and Loss of Command.
NEW YORK, May 24.—A letter from Kartum states that Sir Samuel Baker in his passage from Kartum to Gondokoro lost one half of his command, eight hundred men, near Gondokoro. Sir Samuel had a five days' fight with Bari savages who proved treacherous, and instead of supplying provisions, as they agreed, removed everything from the reach of the expedition and assaulted them.

From New York.

NEW YORK, May 24.—The Stock Exchange yesterday appointed a committee to investigate the affairs of Selms & Co., the junior partner of which Selms & Co. has been captured.
It is believed McVaine will soon be captured.

Notwithstanding the interest taken in the Municipal election yesterday, and the animated contest, everything was quiet and orderly, with no disturbances that have been heard of. The night was peaceful.

Mr. Thomas Beckham won the handsome and valuable autograph musical box which has been on exhibition at the jewelry store of Mr. W. W. Adam, in a raffie, last night, by a throw of 41.

See the advertisement of the Rawley Springs in Rockingham county. These Springs are a favorite summer resort with many of our citizens.

SPECIAL NOTICES.

PROVIDE AGAINST DANGER.—At this season all the great lines of travel begin to swarm with human beings intent on business or pleasure. Are these moving multitudes aware of the danger which ensues from drinking different varieties of water and breathing different air? Do they realize how important it is to be armed with an antidote that will defend their systems from the evil consequences of such changes and from all ailments and disturbances which arise from the miasma so plentifully evolved from the soil at this period of the year? Such an antidote—certain in its protective operation and free from everything objectionable in its composition and flavor—has been for twenty years before the world. No instance can be adduced, during that period, in which Hostetter's Stomachic has failed as an acclimating medicine, or as a preventive of the bodily ills to which the undefended system is liable in unhealthy localities.

A good appetite, perfect digestion, a vigorous condition of the nervous system, functional regularity, and a pure and active circulation, are the elements of health, and these signal blessings may be secured and perpetuated by the use of this powerful, yet harmless, vegetable tonic. Such is the experience of all who have taken it as a safeguard against the diseases which debility, irregularity and a morbid condition of the solids and fluids of the body are sure to invite.

PHYSICIANS USE THEM IN THEIR PRACTICE.—It is almost universally the case that the physicians condemn what are generally known as "Patent Medicines." Although Dr. Tuttle's Liver Pills is not a patent medicine, yet its composition (the result of years of study) is known only to himself, and so palpable are their value-stimulating properties that very many of the first physicians in the South and West have adopted them in their practice, and recommended them to their patients.

Shelby county, Ala., Sept. 12, 1869.
Dr. Wm. H. Tuttle.—Although I am an M.D., and naturally hostile to all "patents," yet "seeing is believing, and feeling is the naked truth." I must say, from actual observation, that your Liver Pills are all you represent them to be, and a little more besides. I shall always recommend them.
